

ILLULIAN®

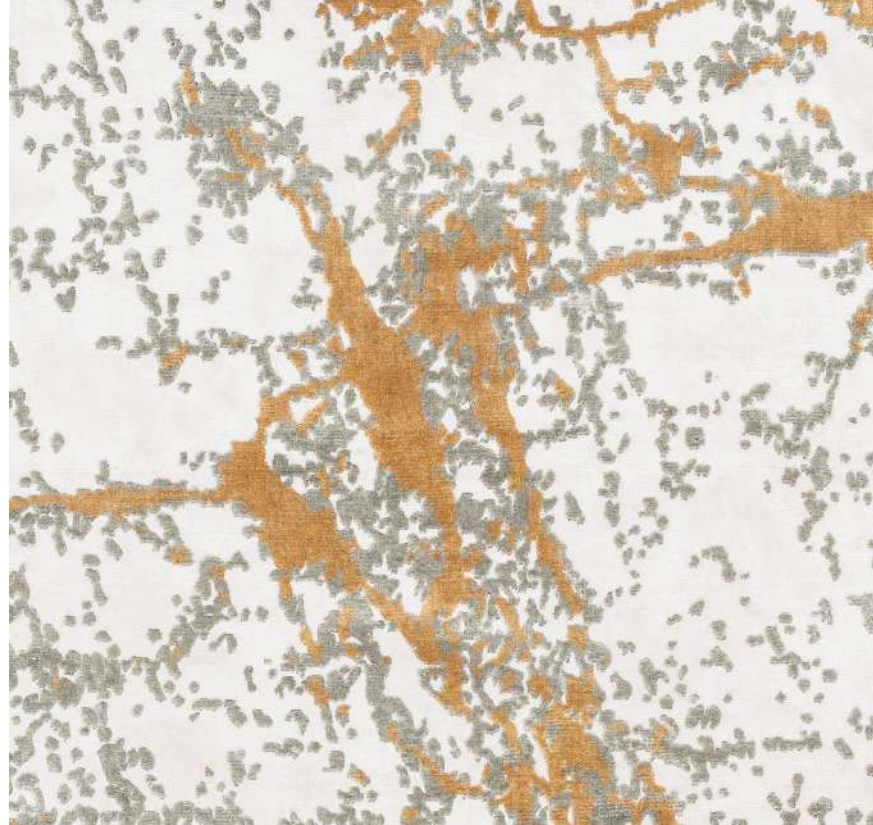

LUXURIOUS CUSTOM HANDMADE RUGS

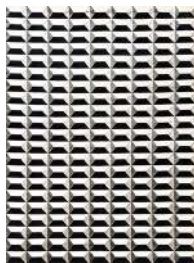

A black and white photograph of two men standing side-by-side against a light background. Both men are wearing dark suits, white shirts, and ties. The man on the left has short, dark hair and is smiling. The man on the right has curly, dark hair and is also smiling. They are both looking directly at the camera. The man on the left is wearing a watch on his left wrist. The man on the right has his hands in his pockets.

**“The quality of Illulian’s fine rugs
is a perfect balance between tradition
and modernity for the finest
corners of design”**

About us

Illulian's offer is the result of an expertise developed over 60 years. Our success is linked to the creative and innovative approach that the Illulian family has been able to apply to the Nepalese tradition of hand-knotted rug. The quality of fine materials suitable for foot traffic combined with the use of traditional dyeing techniques with a very low environmental impact, has made possible for our products to succeed internationally. In addition to our seven collections, private individuals, architects, designers and large furniture companies have chosen over the years to rely on what is the real strength of Illulian: the Custom Service. Thanks to our designers we are in fact able to offer a level of customization never seen before; unique items thought and designed to be totally tailored according to every room and to each project whether it is residential, commercial, contract or nautical.
